Water Tanks Let Girls Stay in School

By Larry Jubie, Asst. Regional Rotary Foundation Coordinator, Zone 24 West

The Rotary Club of Everett-Port Gardner (D-5050) joined forces with the Rotary Club of Santa Cruz Barillas (D-4250) to provide a water system for the mountain village of El Porvenir in Guatemala.

The village is located on a mountaintop outside of Santa Cruz Barillas in Guatemala. The only way villagers could get water previously was to hike down the road to the river — an approximately six-mile roundtrip.

The task of getting water is left to the women and children of the village. Usually, the oldest daughter in the family is tasked with the responsibility. Water for drinking and cooking previously required the six-mile roundtrip, and clothes washing was done at the river, after which the girls would carry the wet clothes back up the hill. The lengthy trek meant that the girl assigned to this task could not attend school.

All that changed thanks to a Rotary Foundation Global Grant!

The total funds were \$7,000 from the Rotary Club of Everett-Port Gardner and \$3,000 from the Rotary Club of Everett. That was matched with \$10,000 in DDF from D-5050. Combined with \$15,000 from the World Fund, the \$30,000 grant paid for a 2500 liter water storage tank to be placed at every home in the village.

In addition, Everett-Port Gardner Rotarians arranged for the villagers to get together to create combinations of tanks so that everyone within a given "Water District" could draw on the combined supply for their drinking and washing needs. The Rotarians also installed tanks at the school so that the school children would have water to drink. All-in-all, a total of 57 water tanks were installed thanks to the grant and the joint efforts of the Rotary Club of Everett-Port Gardner and Rotary Club of Santa Cruz Barillas.

The American Rotarians who visited Guatemala to do the installations didn't speak Spanish, and the villagers and the Rotary Club of Santa Cruz Barillas didn't speak English, but love and respect were well understood by all and in good supply!
