# The Rhine, Main - Danube Canal

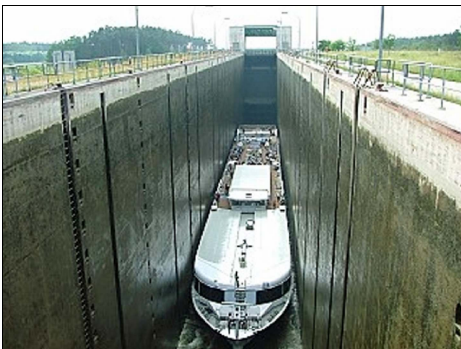

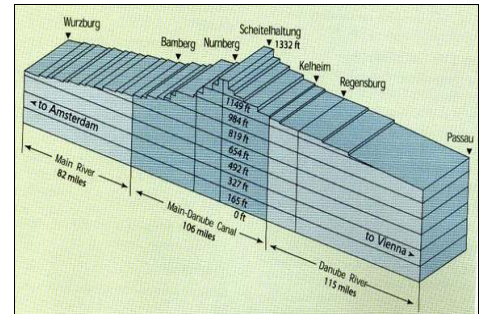

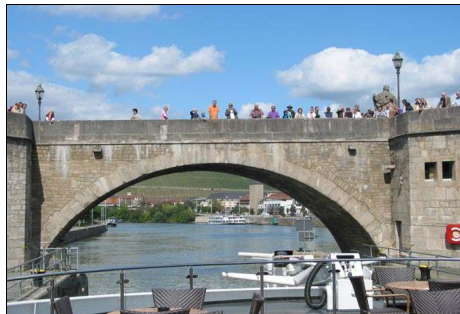

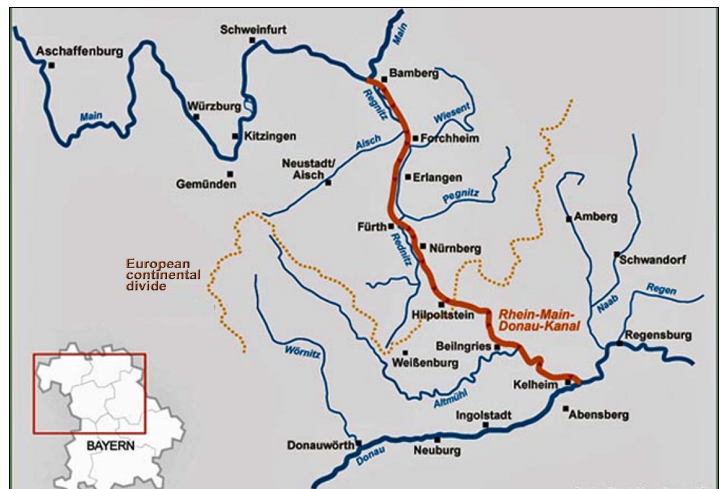

Woodbury Rotary Lunch Club President Roger Jones thanks fellow Rotarian Ed Barry for his wonderful presentation on the Rhine, Main-Danube Canal. Over time and several cruises' Ed and his wife completed the entire trip from the North Sea to the Black Sea.

Today, there is the Main–Danube Canal, Completed in 1992 and 106 miles long, it is located in Bavaria, Germany, and connects the Main and the Danube rivers across the European Watershed, running from Bamberg via Nuremberg to Kelheim.

The canal connects the North Sea and Atlantic Ocean to the Black Sea, providing a navigable artery between the Rhine delta (at Rotterdam in the Netherlands), and the Danube Delta in south-eastern Romania and south-western Ukraine (or Constanța, through the Danube Black Sea Canal). The present canal was completed in 1992 and is 171 kilometres (106 mi) long. Nuremberg has become a major inland port.

## Cathy Alveario China Trip Part 2

Back on 9 January 2018, Cathy Alveario gave us a slid show of pictures she took while traveling throughout China.

Cathy was representing Neumann Goretti Catholic High School in South Philadelphia and made two trips to China to sign up foreign students willing to pursue an American high school diploma.

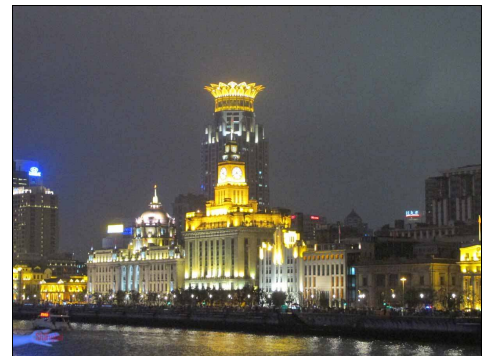

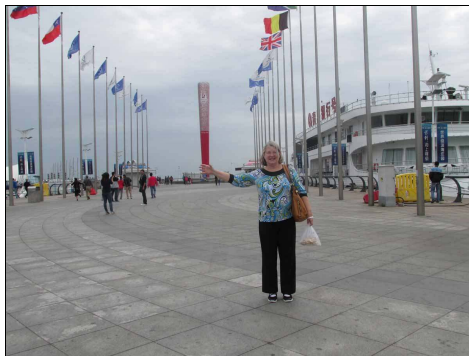

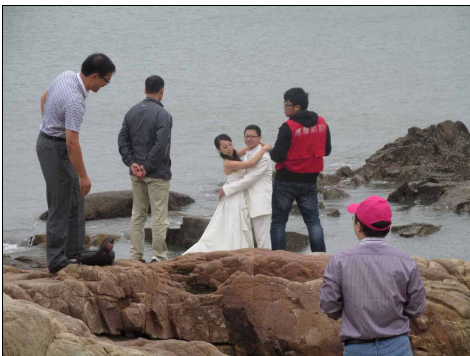

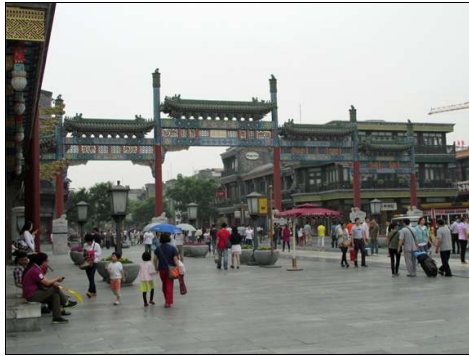

Cathy returned with additional pictures as a Part two slide show of her trips.

Cathy took some very interesting street and human interest pictures that shed light on everyday life.

Many of Cathy's pictures can now be viewed on our Woodbury Rotary Club website by [clicking here](#)
